1.Changes in the economic and social environment

- Adjustment of economic structures
- Transformation and upgrade of industries
- Polarisation of dual social structure
- Increasing new demands

I Three major changes in open and distance learning environment

2. Changes in higher education

■ Increasing number of students

	1999	2016
Enrollment of students	7.18 million	40 million
Gross enrollment rate	9%	40%

■ Achieving equal access

■ Lacking opportunity for disadvantaged groups

I Three major changes in open and distance learning environment

3.Changes in the environment of information technology

- Emergence of information technology (Internet, cloud computing, big data)
- Rise of mobile Internet users

II Four essential leadership traits for presidents of open universities

- **Former U.S. Secretary of State, Dr. Henry Kissinger said, ‘The task of the leader is to get his people from where they are to where they have not been.’**

II Four essential leadership traits for presidents of open universities

II Four essential leadership traits for presidents of open universities

- 1. The ability to lead changes. This is an ability to adapt to changes, decide development goals, and lead universities' development, shown through a strategic, comprehensive, logical, and innovation.**
- 2. The ability to make top-level decisions. This is an ability to make action plans based on development goals, and to constantly correct and improve direction, goals, structure, mechanism, and models.**

II Four essential leadership traits for presidents of open universities

- 3. The ability to drive an organisation forward. The ability to mobilise a university, build consensus, and integrate and utilise forces to propel the implementation of plans.**
- 4. The ability to promote collaborative development. The ability to cooperate and develop alongside related universities and social institutions based on common goals and benefits.**

III Case study of the Open University of China

- Proposes complementary model to traditional universities
- Promotes Internet-based open and distance learning
- Provides both degree and non-degree education

3.56 million registered students

III Case study of the Open University of China

- For the public good
- For the special groups
- For the ethnic minority groups

270,000 ethnic minority students

6,000 disabled students

120,000 military personnel

70% students at the grassroots

55% students distributed in the central and western regions

III Case study of the Open University of China

- **Emphasis on reform and innovation**
- **Enhancing cooperation**
- **Establishment of a “community of interest”**

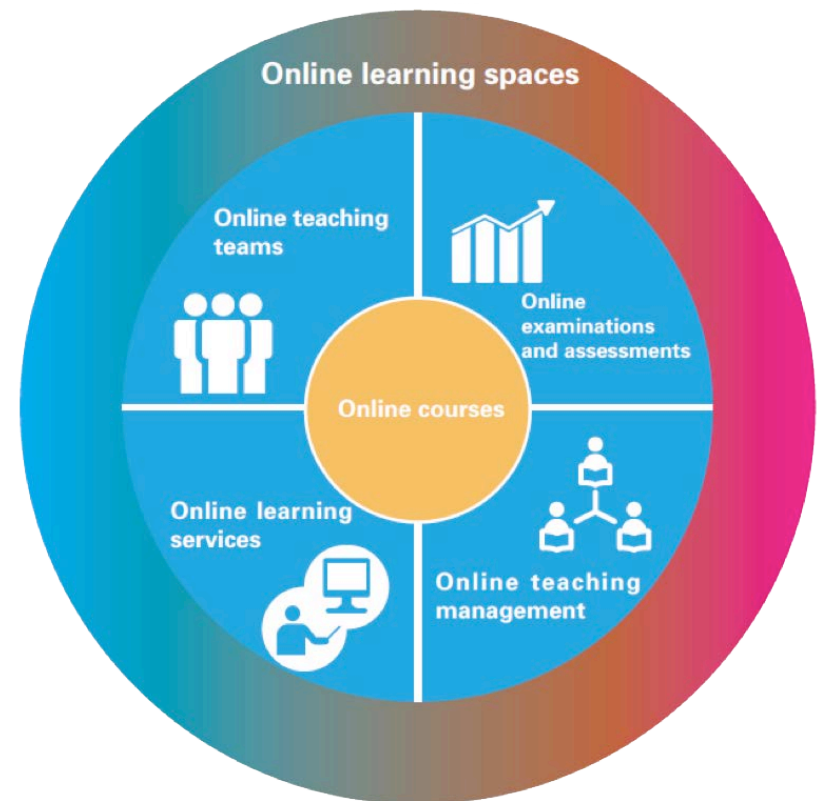

III Case study of the Open University of China

- A learner development model consists of 6 elements

- **Online learning spaces**
 - Online courses
 - Online assessments
 - Online learner support
 - Online teaching teams
 - Online teaching management

III Case study of the Open University of China

- Accreditation
- Accumulation
- Transfer of learning outcomes

III Case study of the Open University of China

Major Three Action Plan

- **For the elderly:** The open university for the elderly
- **For migrant workers:** Action plan for boosting education and ability programme for migrant workers: “realising dreams of further education”
- **For women:** Brilliant life: a lifelong learning plan for women

One World, Multiple Models

Thank you!
